

## Mobile phone policy:

- The use of technology in schools is monitored to ensure that students do not get distracted from their learning. The school has implemented the following policies:
- Mobile phones must be surrendered at the beginning of the day and returned at the end of the day.
  - Parents must contact the School Principals to get permission.
- The school does not assume any responsibility for phones brought onto the premises.
- If a student is found with a mobile phone during school hours, it will be confiscated and handed over to the school principal. This may result in an extended period of confiscation.
- Each year, a Counselling Committee is appointed by the School Principal, consisting of Academic Directors, School Counselors, Vice-Principals, and teachers or supervisors.
